

AMAEISING THINGS ARE POSSIBLE

“Colorado’s leadership and economy is heading down the same path as Washington, DC under our current Governor. It does not have to be this way. Together, you and I can take back our state, re-energize our economy, and turn things around. ...Will you join me?”

After climbing out of poverty as a child through personal responsibility and individual freedom I earned my first business management role at 26. After that I helped double the size of two companies and then earned a managing partner role in a telecommunications company. There I successfully turned around two failing organizations. After that I successfully founded, grew and sold a small company. It is with this managerial and executive skill set that I want to accomplish the following for Colorado:

1. Increase efficiencies in the area of FTE counts thus reducing the size of state government freeing up funds for other priorities.
2. Identify areas for program consolidation or elimination including positions that duplicate the purpose of an executives responsibility.
3. Reverse the executive orders that created the state employees union, and funding for Planned Parenthood
4. Restructure the content of the COGCC and work toward a more energy friendly regulatory environment in order to drive energy severance tax revenue to its highest in the state’s history while encouraging new energy models
5. Give tax incentives to all small businesses that hire at least 1 new employee in 2011
6. Support choice in education including home, charter, public and private options. Work for a tax credit for those who choose home or private schools
7. I will defend the Tax Payers Bill of Rights (TABOR) and work aggressively to reverse any legislation implemented by Ritter Administration that violates TABOR. (i.e. Faster Legislation, property tax mill levy freeze, dirty dozen tax exemptions)
8. Reduce the personal income tax to a level of 4.5% by 2012
9. 5% unemployment rate by the end of 2013
10. Initiate a new era of stricter enforcement of existing legislation and state laws including those covering vehicle registration, drivers licenses, DUI, and illegal immigration.
11. Limit new legislation to 3 bills per member of the assembly
12. Facilitate mutually beneficial resolution between our states strong military economy and private property owners in Pinon Canyon Area.
